WILLIAMS DEFEATS ASH FORK IN SUNDAY GAME

Williams beat Ash Fork on the latter's grounds last Sunday making 16 hits and 22 runs off Pritchard, their crack pitcher, while Conway held Ash Fork to 7 hits and five runs. The local team outfielded, outbatted and generally outplayed the Ash Fork aggregation, and the score properly indicates the difference in the strength of the two teams as they lined up last Sunday.

The Score by Innings:
Williams 0 3 0 2 1 3 4 1 8-22
Ash Fork 0 0 4 2 0 0 0 0-5

Batteries: For Williams Conway and Gilfillan; for Ash Fork Pritchard and Hopkins.

The Flagstaff battery team will come to Williams Sunday and the game will be called at 2:30 p. m. This is practically the same aggregation which was beaten by Williams on the local diamond at the start of the season by a score of 15 to 9, and it is the intention of the local boys to repeat the dose Sunday.

WILLIAMS vs FLAGSTAFF

Williams High School team got revenge for the defeat administered to them at Flagstaff recently, by defeating the Flagstaff boys by a score of 10 to 4 at the Williams base ball park on Saturday last. Ross for Williams High pitched a good steady game, and was touched up for but eight hits. Every member of the Williams team was there with the willow, piling up eighteen hits off Long and Cameron, the Flagstaff pitchers.

Dr. Jeffries is driving one of those new light Overlands. If the merits of the car are to be judged by the pleasure the owner derives from the car's action, this new light Overland must be all that the makers claim it is.

FLAGSTAFF NOTES

Capt. E. M. Robinson is in receipt of a wire from Adjutant General Ingalls that the Battery will be inspected May 25th at 8 P. M. The ball playing members of the "Battery" are busily engaged in organizing a crack ball team. Capt. Robinson says that it is to be the best team in northern Arizona. Good luck to you, boys.

On Thursday the 20th, the teachers and pupils of Emerson School enjoyed a splendid picnic in the city park. All unite in declaring that a splendid time was had.

CITY ELECTION

The city election will be held Monday. There will be but one voting place—the City Hall. There are five councilmen to elect, and there are five announced candidates, Messrs. Rittenhouse, Polson, Elliott, Johnson, and Sweetwood. All five of the candidates are well-known business men of Williams and will give the town what it needs—a strictly business administration.

There have been many rumors afloat as to who can vote at the election. To settle the matter the inspector and the judges appointed by the council to conduct the election make the following announcement. Every person who has been a resident of the town of Williams for the past six months and who was a qualified elector at the general election held November 1918, or who has since become a qualified elector by registration in 1920, is entitled to vote.

Registration is therefore unnecessary, either with the county recorder or with the Town of Williams, if you were registered in 1918, provided you are otherwise qualified.

He also has a good line of goods which he offers to those desiring useful articles at moderate prices.

Mr. Parrish is also a watchmaker and an expert at repair work of all kinds. He came to Williams accompanied by his wife and children and expects to make this his home indefinitely.

A definite program of procedure will appear in the paper next week.

W. H. Knowlton this week bought the Village Blacksmith Shop from H. D. Boulton. Possession was given on the morning of the 18th. Williams still has a Village "Smithy" but he bears a different name.

Mr. Knowlton has spent over twenty years working at the blacksmith trade. This long experience has fitted him for doing well all of the work that falls in his line. Besides being an expert blacksmith, he is also a wagon and carriage maker and a general wheelwright. He solicits the patronage of the people of Williams and surrounding country, and guarantees first class workmanship.

Buffalo Gap, Texas, was Mr. Knowlton's former home. Together with his wife he hopes to make Williams his permanent residence. He will appreciate having the opportunity to prove to each individual in the community, his ability to do the best of work in his line.

By the time Mrs. Nagiller gets thru with her overhauling, the Cottage Hotel will be one of the cleanest and most inviting rooming places to be found along the Old Trails route.

NEW BILL WILLIAMS TRAIL NOW OPEN

For a number of years the local Forest Office has been looking for a better location for a trail up Bill Williams mountain. They have been seeking one that would permit of a trail to be opened earlier and closed later than the old trail, and that would cost less for upkeep. After giving the matter considerable study, and weighing the possibilities offered on each of the more exposed slopes of the mountain, a trail branching from the Coleman Lake road was settled upon. This has now been cleared and is open to travel.

The old trail is still blocked by huge banks of snow that cannot be crossed by man or horse, and present indications are that this condition will continue several weeks. In addition to this the trail is washed out in a number of places and will be almost impassable after the snow is gone.

The new trail, on the other hand, has been open for a number of days and is in daily use by the forest lookout already stationed at the top. This trail is washed out in but one place and that is soon to be repaired. The grade of the new trail is much less than that of the old, the steepest incline being approximately 12 degrees or less than half that of some points in the old trail. This is one of the greatest advantages possessed by the new route.

To get to the new trail it is necessary to drive out on the Coleman Lake road as far as H. L. Benham's ranch. The road which branches to his homestead also leads to the foot of the trail. The point where this road leaves the Coleman Lake road, is marked by a sign and another sign marks the point where the trail leaves the branch road. The trail passes thru a pasture which necessitates two gates, but these are in good condition and easily opened and closed.

CAUTION: Persons going up on the mountain should carry their drinking water with them.

The distance up the mountain by the new trail is four and one quarter miles, measuring from the point where the trail leaves the Coleman lake road up to the lookout on the mountain top.

DRENNAN-HUDSON

At a quiet home wedding at the bride's home, Mr. James Hudson and Mrs. Selma Drennan were united in marriage on Wednesday evening, May 12. Besides the immediate family there were present, Mrs. Barnhart and Mrs. Alex Phillips.

Lohengrin was the wedding march played by Mrs. Phillips. The bride and groom stood in the archway between the dining and living rooms during the ceremony.

After congratulations and good wishes had been extended the party went to the Rebekah lodge, where six candidates were initiated. A bountiful lunch and dancing followed.

The party returned home accompanied by a few friends, where, after listening to a selection by the tin band, they enjoyed cream and cake.

The band was composed of the following: Mesdames Barnes, Owens, Snyder, Stone and Alderson.

During the ceremony, Mrs. Hudson carried a point lace handkerchief, which was made for Mrs. Phillips' mother to use at her own wedding in 1848. It was used by Mrs. Phillips, two sisters and two sisters-in-law and nineteen cousins and friends, Mrs. Hudson making the 25th.

Carload of Overlands

The White Garage received a carload of those new light Overlands, the first of the week. Judging from the number of these that one sees running about town, the carload must be already sold out.
